Willing to relocate to: Buffalo, NY - Rochester, NY - Albany, NY

Authorized to work in the US for any employer

WORK EXPERIENCE

Barber

Saving Face Barbershop - Manlius, NY

August 2017 to Present

I started an apprenticeship with Saving Face Barbershop in August of 2017. This apprenticeship was a huge stepping stone for me in my path as it taught me self-discipline and really improved my work ethic. Working as a barber is interesting because even though you work in a shop, at the end of the day you're promoting yourself. The haircuts that you do directly reflect your personal workmanship and this was a great step in me gaining confidence in myself and pushing myself to be the best that I can be. My time at Saving Face really brought to light that with hard work come great results and that mentality has been carried with me as I decided to go back to school and continue my journey.

Server

Chili's Grill & Bar Restaurant - Liverpool, NY

April 2016 to Present
